a year in the LIFE

It's hard to believe that this is our fifth Year in the Life publication. Although the faces may change from issue to issue, the important work that we do as an agency remains the same. This "family album" will give you a little taste of the many people and jobs that make up DIA. As always, the Internal Communications team couldn't do this without the efforts of our Communications Board members and other volunteer photographers. We thank you for your contributions!

fall 2008

DIRECTOR, DEFENSE INTELLIGENCE AGENCY

Welcome to "A Year in the Life of DIA." It is our effort to capture in pictures the enormous contributions made by the men and women of DIA in 2008.

During the last 12 months, you provided vital intelligence support to warfighters and policymakers while simultaneously strengthening the emerging defense intelligence enterprise.

You did so during a time of great change and challenge and in areas of crisis and conflict including Iraq, Afghanistan, Horn of Africa, South America, Southeast Asia and the Caucuses.

These photographs tell our story – the story of the nation's premier military intelligence organization. They show our global presence. They reflect your hard work, courage, professionalism and – above all else – your continuing Commitment to Excellence in Defense of the Nation.

Thank you for your service during 2008, a critical year for our nation. As the following pictures demonstrate, you are laying a solid foundation for continued success in the years ahead.
